**Total lbs. of Telling Steel:** 327,000 lbs.  
**Sales Manager:** Dan Lane  
**Distributor:** GMS Colonial  
**General Contractor:** Cleveland Construction  
**Interior Contractor:** NC Interiors

## PROJECT DESCRIPTION:

Indian Land High School, 6100 Charlotte Hwy Lancaster, SC 29720. The 2-story Indian Land High School located in Lancaster County, South Carolina. The new 200+ student high school construction was constructed on 93 acres of land occupying 341,158 square feet of space.

For this project, Telling manufactured all the Metal Framing including the Structural Load Bearing Studs & Track, Interior Non-Load Bearing 20EQ Drywall Studs & Track, Slotted Deflection Track, CRC Bracing, Flat Strap, and various Roll Formed Right Angles.

The high school project incorporated the construction of a new 2-story, 258,000 square-foot high school building with a 27,000 square foot cafeteria, a 22,400 square foot Career and Technology Center, a 17,500 square foot athletics field house, sports fields for track, soccer, and baseball, and associated campus and parking areas for students, visitors, and district buses. The school site has direct access to Highway 521 and the property is large enough to provide Lancaster Country School District with space for future growth.

## Innovative, Responsive Solutions for All Your Metal Framing Needs
